

Parish Meetings continue, refer to website and notice boards. <https://farringdonpc.org/>

Next meeting: Thurs. 12th March 2026 @ 7pm in All Saints Church.

Reporting any local issue on road, footpaths etc. can now be done via our updated website.

Hopefully the more instances of you reporting a problem will raise the priority of the job!

LOCAL ISSUES WITH ROADS AND LANES

MAJORITY REPORTED TO HCC/EHDC

Beware of Potholes!!!

Majority of problems seen within or near the Farringdon Parish are listed in relation to their Road/Lane location and have been reported to HCC/EHDC via their websites but recently we have seen a reduction in action possibly due to available finances.

UPDATE ON FLOOD ALLEVIATION WORKS no further action!

Statement from HCC:

Planning permission for the proposed final section of works was granted in September 2024. Although Hampshire County Council has powers as Lead Local Flood Authority to construct the final section of works as permitted by the planning permission, it's acknowledged this would be against the wishes of some landowners and the parish council. This final section of works will NOT therefore be constructed and an alternative plan to deploy emergency measures as and when the need arises will be implemented instead.

MAIN A32 SOUTH to Farringdon crossroads

Ditches at side of the A32 still require clearing and it is also evident that drainage pipes under side roads are still partially blocked. Responsibility deemed to be with landowners. There are still left over damaged road signs on the road side but no water in ditches.

KITCOMBE LANE

No reports of any problems.

Monitoring of off road vehicles continues with no recent reports.

Ownership is still being looked at.

FARRINGDON CROSSROADS (north to the 30mph limit)

Problems with large lorries try to access Farringdon Industrial Centre having to reverse onto the A32 from Brightstone Lane has been highlighted. Parish Council are investigating.

NORTH TO CHAWTON ROUNDABOUT

The ditches (now full of slowly flowing water) along the A32 are still a problem with litter, rubbish and vegetation in them. It appears that the onus is still on the land owners to clear. There is some uncertainty on ownership of the RHS side ditches as Chawton estate indicate that their deeds do not show this section of land being owned by them.

BRIGHTSTONE LANE

The runoffs and drains have been cleared but side ditches have not.

Edges of lane have fallen/cut tree branches so be aware.

Repaired BT cables following fallen tree still lie on the verge within 1/2 m of the road edge will no doubt be damaged when verge is cut again. No action as yet by Openreach following reporting.

The ownership of the various parcels of land associated with Lords Wood is still being investigated.

Apparently planning has visited one site and are allowing certain aspects of the site including sighting of caravans and large metal containers etc. Planning are however requesting a formal application for a new site entrance which was been added; no application seen yet.

Apparently planning are reviewing the site conditions of approval.

SHIRNALL HILL

Drains at Chase view being monitored.

CHURCH ROAD and PARSONAGE CLOSE

Work continues at Massey's Folly. Scaffolding has been removed.

THE STREET

The ownership of stank lane was investigated but came to no conclusion at this time.

Locally landowners are responsible for side hedges whilst HCC maintains brideway to 2.5m.

Collapsed road edges reported to HCC but they have been classed as not requiring any action.

CROWS LANE.

Drainage system that exits into Gaston Lane require drains and gulleys to be cleared otherwise excessive runoff from fields above Hall lane will cause local flooding.

GASTON LANE

Gaston lane (Caker stream bridge) is still **CLOSED** until bridge repaired. April 2026 indicated!!.

If the planned solar farm application is passed then during the site construction, this lane will probably become one way with Hall Lane also one way.

HALL LANE potholes!

Extensive flooding occurred with soak away blocked. (water now minimal)

Attempts have been made to clear the mud and debris from soak away.

HCC have been informed.

Some reported damaged tyres with unseen break-up of road under the water.

Solar farm application for fields adjacent to this land Gaston lane now are being discussed. The SDNP sign at the junction of Hall lane and the B3006 has been reported as a sightline

obstruction but no action so far. The left hand junction sign on the B3006 still not replaced after 2 years but has been highlighted yet again to HCC. Now damaged again!

LOWER PLAYING FIELD, PLAY GROUND beware!!

Raising water table now evident in lower play area.
Parish Council have restricted area use and installed orange safety netting.
Please DO NOT enter the water!

A new small gate has been added to allow easy access to the recent installed gym equipment.
Broken wooden bollards adjacent to the road are being checked and will be replaced shortly.

COMMUNITY VILLAGE GARDEN

Garden work by volunteers continues.
Adjacent parking, use of passage and access to Right Of Way is being monitored.
Illegal parking on the Right of Way should be reported to the local authorities directly.

FOOTPATHS AND HEDGES

All paths and bridleways are being monitored; most are passable.
HCC Rights of Way did list 6 paths within the parish and were on the cutting list for previous years, although not a lot of work was carried out.
The council has heard that HCC are no longer engaging local contractors to cut hedges.
Locally there are Ranger volunteers doing this job—we wait for an update.

All hedges and overhanging trees to be cut back from the road, lane edges and those bordering any footpaths and bridleways. Rights of Way may only cut footpaths to 1.50m and bridleways to 2.50m width. We believe that the Byways Open To all Traffic (B.O.A.T)'s are still under HCC control).
Problems can be reported to myself or directly to the Rights Of Way website.

To report footpath problems use the Parish Website <https://farringdonpc.org/>

FLOODING Water table is above normal but steady:

Local water table level read on March 6th as 116.36m AOD. (93.72-113.45) normal range)
Flood alleviation plan by HCC for further work along Lavant stream has been cancelled with only future works if it floods following a revised emergency plan.

Last year the total amount of rainfall measured in my garden was 895mm and is the lowest for 5 years, lowest temperature was -5 deg and highest was 35 deg.(my measurements!)

PLEASE REPORT ANY ROAD/ENVIRONMENTAL PROBLEMS DIRECTLY TO ME
OR TO ANY PARISH COUNCILLOR, OUR CLERK, OR VIA THE PARISH WEBSITE.

Compiled Cclr David Williams david.williams@farringdonpc.org
